### ABOUT ME

UX Designer with a professional background in Non-Profit, Education and Care. Experienced in understanding people's true feelings, motivations and expectations as well as being proactive in solving problems. Skilled in creating intuitive user-centered experiences following the agile design process, and prototyping with HTML and CSS.

### PROFESSIONAL EXPERIENCE

#### Freelance UX Designer

*London, Bournemouth (UK) & Plaisir (FR) | Oct 2020 - Present*

Created mobile and web responsive applications design projects, from idea to prototype (more to come):

##### My Portfolio-Website

➡ [My portfolio-website study case](#)

I developed my own portfolio-website using Atom & GitHub, all while learning the basics of HTML5, CSS3 and JavaScript.

##### ExpertsNow - Responsive web application

➡ [ExpertsNow study case](#)

Following a user-centered design process, I created a responsive web application. I conducted research, created prototypes, ran user tests and worked on the visual design.

##### MultiLearn - Mobile application

➡ [MultiLearn study case](#)

Following a mobile-first design approach, I created a native application. I conducted research, created rapid prototypes and ran usability tests.

#### Home Healthcare Provider

*CHCP | Morden (UK) | Nov 2019 - Sep 2020*

Provided personal care to clients, made sure they were comfortable and guaranteed the maintenance of their environment.

#### Private English Tutor

*Acadomia & Complétude | Yvelines (FR) | Aug 2018 - Mar 2019*

Individually tutored 8 and 5 students (5<sup>ème</sup> to Terminale).

#### Coach (Youth worker)

*Life Project 4 Youth | Cebu (PH) | Feb 2017 - Feb 2018*

- Managed a programme gathering 15 youth coming from a disadvantaged economical environment.
- Acted as a consultant in a micro-activity developed by the Youth from the programme.
- Taught English, Computer & Communication skills to the Youth.
- Guided the Youth individually and per group towards their social and professional integration.
