ABOUT ME

UX Designer with a background in Non-Profit, Education and Care. Experienced in understanding people's true feelings, motivations and expectations as well as being proactive in solving problems. Skilled in creating intuitive user-centered experiences following the agile design process, and prototyping with HTML, CSS and Javascript.

WORK EXPERIENCE

Home Healthcare Provider

Care Home Community Provider | Morden (UK) | Nov 2019 - Sep 2020

- Provided personal care to clients, made sure they were comfortable and guaranteed the maintenance of their environment.

Private English Tutor

Acadomia & Complétude | Yvelines (FRANCE) | Aug 2018 - Mar 2019

- Individually tutored 8 and 5 students (5ème to Terminale) to help them improve on their English skills.

Coach (Youth worker)

Life Project 4 Youth (LP4Y) | Cebu (PHILIPPINES) | Feb 2017 - Feb 2018

- Organized a programme gathering 15 youth coming from a disadvantaged economical environment.
- Acted as a consultant in a micro-activity developed by the Youth from the programme.
- Taught English, Computer & Communication skills to the Youth.
- Guided the Youth individually and per group towards their social and professional integration.

EDUCATION

UX Design Certification with a Front-End Specialization

Nov 2021 | CareerFoundry.com | Online

- Learnt UX Design Process & basics of HTML5, CSS3, Javascript
- Created 2 application, including a web responsive app (cf: PROJECTS).
- Developed my own portfolio-website (cf: PROJECTS).

Master 2 in Business Administration

Jan 2015 - Mar 2017 | KEDGE BS | Bordeaux (FRANCE) & Suzhou (CHINA)

PROJECTS

My Portfolio-Website

Nov 2021

During a CareerFoundry specialization course on Front-end Development, I developed my own portfolio-website using Atom and Github, all while learning the basics of HTML5, CSS3 and Javascript.

View project here: **MyPortfolioWebsite**

ExpertsNow

May 2021 - Nov 2021

During a CareerFoundry immersion course to UX Design, I created and designed a responsive web application, following an agile process and using Adobe XD as main design tool.

View project here: **ExpertsNow**
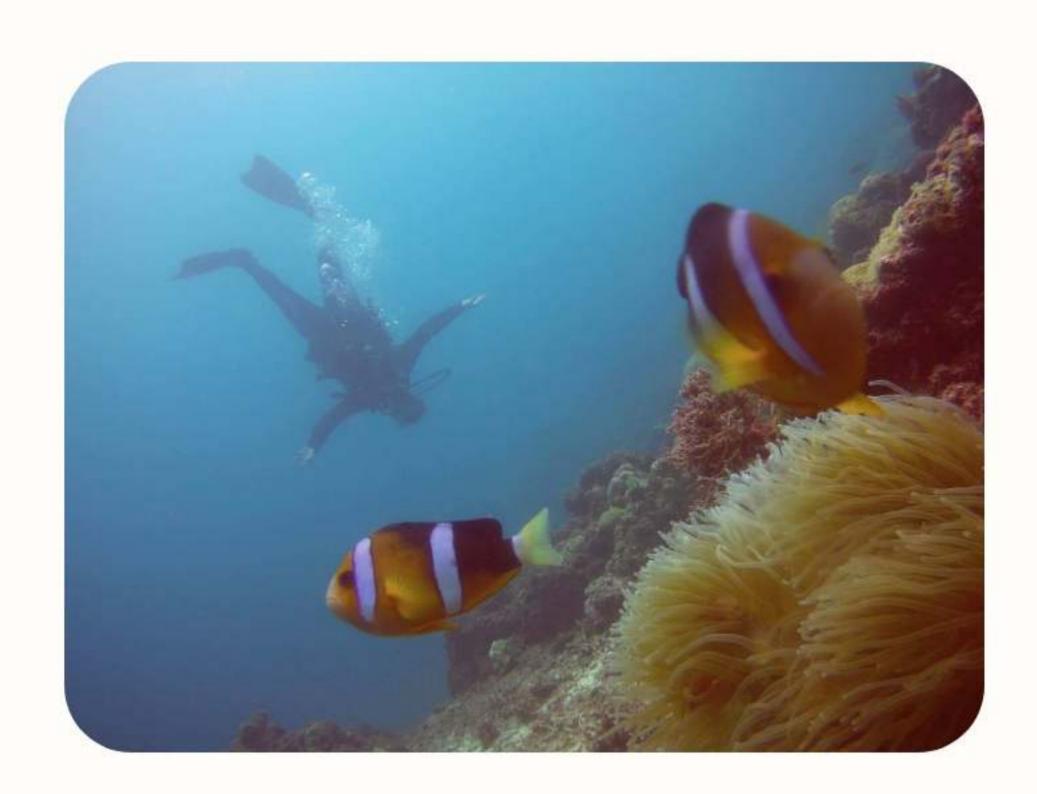

Multilearn

Oct 2020 - Nov 2020

During a CareerFoundry introduction course to UX Design, I created and designed a native vocabulary learning app, following an agile process and using Google draw as main design tool.
